Objective

Mission-driven cybersecurity professional and defence aspirant with expertise in Threat Intelligence, Digital Forensics, and Network Security, focused on identifying, analysing, and neutralizing advanced cyber threats.

Certifications & Education

Certifications

- **Certified Ethical Hacker (CEH)**
- **Certified Network Security Practitioner (CNSP)**
- **Certified Threat Intelligence Analyst (CTIA)**
- **National Security Database (NSD)**
- **Cyber Crime Intervention Officer (CCIO)**
- **Computer Hacking & Forensic Investigator (CHFI)**
- **Digital Forensics Essentials (DFE)**
- **Ethical Hacking Essentials (EHE)**
- **ISEA Certified Cyber Hygiene Practitioner**
- **CPEW – Certified Professional in Ethical Warfare**
- **Advance Threat and Governance**
- **Dark Web Operations**
- **EC-Council Certified Cybersecurity Career Mentor (Badge)**

Education

Amity University Noida
BCA – Computer Science & Information Technology

12th – Computer Science with Commerce
Senior Secondary

1-Year Diploma in Cyber Security
Professional Certification Diploma

Experience

- | | |
|--|-----------------------------|
| • Cyber Crime Intervention Officer | May 2024 – Present |
| • Cybercrime Investigator / Warrior – UP Police | Aug 2024 – Present |
| • Cybersecurity Consultant – CID Crime, Gujarat Police | Nov 2024 – Jan 2025 |
| • Cybersecurity Analyst – Demmisto Technology | Nov 2024 – Jan 2025 |
| • Cybercrime Investigator – Cyber Forensics & Security Solutions | Aug 2024 – Sep 2024 |
| • VAPT – National Critical Information Infrastructure Protection Centre | Mar 2024 |
| i) Ranked Top 38 / 9000—2024, 42/10000--2025 | |
| • Cybersecurity Instructor / Mentor – NS3 Tech Solutions Pvt. Ltd. | Aug 2023 – Mar 2024 |
| • Cybersecurity Trainer – GICSEH | Jan 2023 – Aug 2023 |
| • Cybersecurity Consultant – DUCAT India | March 2025 – Jan 2026 |
| • Amroha Police cyber security internship | 10 June 2026 – 22 June 2026 |

Work

- Assisted personals of **Indian Navy, Crime Branch** in Gathering Intelligence (OSINT)
- Solved International & domestic cybercrime cases
- Conducted seminars on THREAT INTELLIGENCE in Multiple Colleges
- Conducted seminars on CYBER SECURITY in Multiple Colleges
- Collaborated with law enforcement agencies on critical cybercrime investigations
- Mentored students and professionals in real-world cyber incident response strategies
- Assisted in real-time analysis of cyber threats targeting critical infrastructure
- Led awareness programs on cyber hygiene and digital safety across universities as a part of **Information Security Education and Awareness (ISEA) – Ministry of Electronics and Information Technology**
- Assisted **Local police department** in cybercrime Awareness and cyber crime cases

Projects

Phish Guard – Phishing Intelligence Dashboard | Python, OSINT

- Built a client-side tool to analyse suspicious URLs/domains using OSINT sources
- Performs real-time threat detection and domain reputation analysis; lightweight and privacy-focused

Whale Watcher – Crypto Transaction Tracker | JavaScript, Blockchain APIs

- Developed a real-time dashboard to monitor large blockchain transactions (whale activity)
- Provides visibility into high-value transfers with intuitive data visualization for rapid analysis

Project Panopticon – OSINT & Threat Intelligence Framework | Virus Total, AbuseIPDB, GeoJS

- Browser-based OSINT platform aggregating data from Virus Total, AbuseIPDB, and GeoJS
- Generates threat scores, tracks IP/domain reputation, performs breach checks, crypto tracing, and 3D infrastructure visualization

Project Tor-IP-Changer – Standalone Windows Executable | Electron, Tor Network

- Routes entire system internet traffic through the Tor anonymity network, dynamically changing the public IP address

Project Net shadow – Active Défense Tool | Electron, Node.js

- Electron-based Windows network monitoring tool that maps all active connections and flags suspicious activity via a custom threat-scoring algorithm

Technical Skills

Languages: Python, C, C++, html, CSS, JavaScript

Networking: CCNA, CCNP, Network Penetration Testing (NPT), Network Security & Troubleshooting

Cloud: AWS, Azure (Cloud Architecture)

Systems: Windows & Linux System Administration, Software Engineering Principles

Specializations: Threat Intelligence, Digital Forensics, OSINT, VAPT, Dark Web Operations
